# Speech Forensics (aka Public Speaking)

- ◆ In alignment with the American Forensic Association (AFA), this course is meant to train students in public speaking and reasoned discourse in public life.
- ◆ In summation, students will present 8-10 times over the course of the semester. Such presentations include, but are not limited to an interview, a research-based presentation, and a spoken word piece.
- ◆ This course is meant to **assist both the eager and especially the unenthusiastic presenter**. Discipline will prove highly impactful as students must be able to work independently to craft speeches.
- ◆ Presentation scores are based on both quality and improvement.

The question is not *if* you will be asked to speak in life.

The question is, *when* you are asked to speak, *what* will you say and *how* will you say it? And, that is where this course comes in.
